

Kontinental - wood

CONSTRUCTION: wood
PROFILE LINE: soft or classic
PROFILE WIDTH: standard

Use

This is the basic and most widely-used program. It is the foundation of DOMIS' range. It is intended for high-quality residential and public buildings. Products from this program can be used both in the restoration of existing buildings and in the construction of new ones.

Advantages

- The largest choice of forms, modes of opening, profile lines and colours
- Different types of glass can be used to adapt the product to different microclimatic conditions.

Choice

The right choice of the type of wood, profile lines and surface processing can make this product an important element of both the interior and the exterior of a building.
