

wood

wood-aluminium

Mediteran

CONSTRUCTION: wood or wood-aluminium

PROFILE LINE: soft or classic

PROFILE WIDTH: slim

Use

Its dimensions make this product an ideal solution for the restoration of buildings with worn-out joinery built in the Mediterranean style, with small façade openings. It is intended for buildings constructed in the Mediterranean climate and its design is adapted to the coastal architecture.

Advantages

- Narrow profile
- Two-winged windows in a narrow opening (70 cm)

Choice

This is the program of choice for preserving the original appearance of Mediterranean-style buildings.
