

# Urban

**CONSTRUCTION:** wood-aluminium

**PROFILE LINE:** modern

**PROFILE WIDTH:** slim

## Use

Our URBAN program is developed to suit modern architectural solutions. Today's prevailing types of buildings are hard to imagine without lavish glass surfaces. They are open to their environment and strive to integrate the exterior and the interior.

## Advantages

- Larger glass surfaces, minimum profile width
- Subdued design
- Sharp profile lines
- Wing hidden from the outside

## Choice

The right choice for modern buildings with state-of-the-art architectural solutions.
